DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
2. The prior art of record fails to disclose or suggest a fracture fixation pin comprising a first and second solid threaded portion, the second portion having a larger thread diameter than the first portion and a plurality of longitudinal grooves, and a solid non-threaded shaft portion which does not exceed the dimension of the diameter of the second portion. This limitation, in combination, with all of the limitations of claims 1, and 17 allowable over the prior art.
3. The prior art of record fails to disclose or suggest a fracture fixation pin comprising a first and second threaded portion, the second portion having a larger thread diameter than the first portion and a plurality of longitudinal grooves, and wherein the first and second threads are continuous with each other and have a common thread depth and thread pitch. This limitation, in combination with all of the limitations of claims 18 and 21, makes the claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
